

# ASIAN/PACIFIC ISLANDER DOMESTIC VIOLENCE RESOURCE PROJECT

## 2016 Community Impact

The Asian/Pacific Islander Domestic Violence Resource Project (DVRP) has served survivors of domestic and sexual violence in the DC metro area for over 20 years. In 2016, we continued our work in the Asian/Pacific Islander (A/PI) community, reaching more individuals this year than ever before.

# 174

Survivors  
Served

Staff provided 270+ resources and referrals to 174 Survivors. Information was communicated in 16 A/PI languages, including Bangla, Cantonese, Japanese, Thai, and Vietnamese.

# 3000

Community Members  
Reached

From healthy relationship discussions to tabling at fairs and festivals, we reached thousands while raising awareness of domestic violence and sexual assault.

# 488

Individuals Trained

Service providers, advocates, and volunteers received Cultural Humility, Domestic Violence, Sexual Assault, and Language Access trainings.

## Sexual Assault Community Assessment

DVRP surveyed 268 A/PI students, professionals, and seniors on how sexual assault (SA) has effected them. Here's what we found:

- 70% of respondents stated SA is extremely common or very common in the A/PI community
- 84% of respondents knew someone who had been sexually assaulted
- Among this 84%, 46% stated their acquaintance who was sexually assaulted did not report the assault to a medical, law enforcement, or legal professional
